Herbert T. Dalmat, Ph.D., Chief
Office of Research Grants
National Center for Air Pollution Control
U.S. Public Health Service
8120 Woodmont Avenue
Bethesda, Maryland 20014

Attention: Mr. True Steffenhagen

Dear Mr. Steffenhagen:

Please accept my thanks for the kind words in your letter of November 29, in which you attempt to soften the fact of the official disinterest in the continuation of the investigations in which my associates and I have been engaged for many years. I suspect that other means of supplying this fraction of the financial support for this work will be found.

The decision is indeed an interesting phenomenon which tends to record itself in my consciousness. Nevertheless, I do appreciate your courtesy.

Cordially yours,

Robert A. Kehoe, M.D.
Professor Emeritus of
Occupational Medicine

Dr. Robert A. Kehoe
Professor Emeritus
Kettering Laboratory
College of Medicine
University of Cincinnati
Cincinnati, Ohio 45219

Dear Dr. Kehoe:

I regret to report that the National Advisory Disease Prevention and Environmental Control Council at its meeting November 27, 1967, did not recommend approval of your application for a research grant, identified by this office as AP 00220-05A1.

I trust you recognize that decisions reached on research proposals represent value judgments of a very difficult nature, which must necessarily be based primarily on the materials submitted by the applicant. Please be assured that the unfavorable results in this instance will in no way prejudice the review of a future proposal which you may desire to submit.

Sincerely yours,

Herbert T. Dalmat, Ph.D.
Chief, Office of Research Grants
National Center for Air Pollution Control
