Subject Overview -- EPA's Homeland Security Program

Location Room 6426 WJC North

Show Time As Busy

Patrick, Reggie and Mario –

After talking briefly with each of you and consulting our e-calendars, it appears that 2:30 – 3:30 p.m. tomorrow (Wed., 2/1) is a good time for an informal overview of the Agency's Homeland Security program for Patrick. (He and I had discussed 2-3 p.m., but it appears he may be booked until 2:30 p.m., so I propose we start then.)

I'll send some overview slides before COB today (Tues., 1/31) or first thing in the morning.

I'm also inviting Patrick to meet our Office of Homeland Security (OHS) staff at our staff meeting, set for 10 a.m. Monday (2/6).

More to come....

Location Room 6426 WJC North
Show Time As Busy
 Patrick –

We've like you to join our EPA Homeland Security Collaborative Network (HSCN) monthly conference call at 10:30 a.m. today (Thurs., 2/23), here in the OHS conference room. The call is one of the ways we maintain a connection with our principal homeland security contacts in the EPA HQ Offices and Regions.

Among the agenda items, we'll be discussing (1) strengthening our homeland security communications networks, especially with the Regions; (2) EPA's Dual Use Research of Concern (DURC) program; and (3) a new proposal for establishing Agency threat agent priorities.

I can also introduce you to this larger EPA community.

The meeting runs from 10:30 a.m. to noon, so you are welcome to join us for any part if you have other conflicts.

Call if you'd like to discuss.

Sorry about the cancellation of the meeting with the Administrator this morning. Today will be the last "Beachhead team" meeting per se. We are no longer going to refer to ourselves as Beachhead team as we are adding new folks every week. The "Trump Administration Team" meetings will go to twice a week after today (Tuesday and Thursday at 4:00pm). I have invited Samantha Dravis and Ryan Jackson, the two newest members of the new administration, to join us.

Please organize your schedule appropriately as this meeting is mandatory. Please bring your 2 minute elevator speech for Mr. Pruitt so your colleagues can critique it.

Dear Mr. Davis,

I am the Chief Deputy Director at the California Department of Pesticide Regulation. Amy Miller in the Region 9 office told me that you are handling OCSPP matters for the transition team at EPA. My Director and I will be in Washington DC March 6-9 and would appreciate the opportunity to meet briefly (15 minutes or so) with you during that time. I know you must be incredibly busy so we understand if this does not work out with your schedule.

Thank you for your consideration. I look forward to hearing from you.

Cordially,
Teresa Marks

Good morning,

To prepare for today's meet-and-greet with the staff at the National Association of State Departments of Agriculture (NASDA), I've attached NASDA's overview document, Federalism One-Pager, and letter requesting to meet with the Administrator April 11th or April 12th. The letter to the Administrator most succinctly identifies what the group would like to see from the agency. I have formally submitted a meeting request to the Administrator's scheduling team. Please let me know if you have any questions.

Thank you,

About

The National Association of State Departments of Agriculture was founded in 1916.

NASDA grows and enhances agriculture by forging partnerships and creating consensus to achieve sound policy outcomes between state departments of agriculture, the federal government, and stakeholders.

NASDA is governed by a 10 member Board of Directors consisting of a five member Executive Committee; one At-Large member; and the presidents of the four NASDA regions. Executive Committee members are the officers of the association and serve a five-year term. (Each region has at least one member serving on the Executive Committee.) The regional presidents serve a one year term. The At-Large member is selected by the Executive Committee.

Subject Speak to Washington Latin PCS

Show Time As Busy

Mr. Davis,

(My apologies, I drafted this hours ago!)

Thank you for chatting with Lucie and I today regarding your upcoming visit to our school, Washington Latin PCS <<http://latinpcs.org/about/>> . We have a group of students with high values for education and stewardship, among others. We honor all people and positions and the AP Environmental Science class includes a student who is currently interning for Luke Messer's School Choice initiative.

We discussed you visiting the school on Thursday, April 6th from 12:45 - 2:30. There is the 15 member Environmental Club from 12:50 - 1:30, where the underclassmen monitor the activity of several hydroponic gardens <<https://www.pinterest.com/chadan/all-things-green/>> throughout the school, pick up litter, meet with members of the community and engage in some socializing!

The AP Environmental Science class begins at 1:35 and there are about 20 students, mostly seniors, all the top students in the school. They will want to know about you, your background, current job scope, the energy future of the EPA and in this country, and there will be one or two that can't resist bringing up the climate change debate.

Hope this is helpful. You can park in front of the school where signage allows, or in the lot around the side. Check in at the front desk and I will be contacted to come down and walk you up.

We look forward to your visit,

--

Somehow, we managed to let our Acting Deputy Administrator's birthday pass by without recognition. To make up for it, please come down to the Deputy's office at 12:30 today to sing the birthday song for the sake of Mike's embarrassment, and let's all eat a cookie together.

AND Shhhhhhhh! Keep it quiet. He told me he didn't want me to do anything, but I know he was lying.

PS: Please forward if you see someone's name missing.

Subject Preparation for Administrator's Attendance at G7 and G20 Meetings
Invitees:

Location 3146 epaw

Show Time As Busy

Purpose: OLEM would like to brief you on our SMM work to assist with preparations for the Administrator's attendance at upcoming G7 and G20 meetings.

Background: In 2016, the G7 countries agreed to create a roadmap on resource efficiency. Italy (who holds the G7 presidency for 2017), with input from the other G7 members, is now writing the "Bologna Roadmap" for consideration at the June 2017 G7 Environment Ministers Meeting. The United States has supported the concept of resource efficiency and worked on this under the G7 and G20. The roadmap includes extending the life of electronics, food waste, and plastics, all of which are key components of EPA's Sustainable Materials Management Program. Administrator Pruitt will represent the United States at the Environment Ministers meeting on June 11-12, 2017, where countries will decide whether to adopt the roadmap.

Furthermore, the G20 (Germany currently holds the presidency) has proposed that the G20 address resource efficiency through a partnership. Brief language in the Leaders' communiqué on resource efficiency is likely, and a launch event for the G20 Resource Partnership is tentatively planned for November 2017. Several U.S. businesses have identified the G20 work as a useful vehicle to exchange best practices learned with some emerging economies where they do business. Finally, work with the G20 countries could promote resource efficiency through the supply chain of materials consumed in the United States, improve our relationship with G20 countries by promoting collaboration, and support efforts by U.S. businesses to engage in other countries.

Hi Patrick,

I wanted to introduce myself electronically but would welcome the opportunity to meet you in person. I was recently speaking with Byron Brown and he told me that you are now the political DAA for OLEM; I also held the same job you are now in several years ago when it was called OSWER. I'm now a consultant at K&L Gates and represent a number of Superfund clients.

I would be happy to chat with you about OLEM and would welcome the opportunity to speak to you about Superfund if you have time.

UPDATE TO INCLUDE THE SF 58 SECTION WORKING MATRIX AND CALL IN NUMBERS

Call in numbers:

(b)(6)

All –

To follow up from Friday's afternoon meeting, I would like to schedule our next follow up meeting this Wednesday, May 24th at 3:30pm.

For your information, the Administrator formally announced the Superfund Task Force this afternoon through a press release. Our working draft memo was included and discussed in the press release. <https://www.epa.gov/newsreleases/epa-announces-superfund-task-force>

Kell wanted you to have a sense of his vision for proceeding. First, this is inclusive. Those of you that wish to participate please do. Second, we will also try to involve all of our Regional Superfund Division Directors if possible. Our first meeting will discuss initial groundwork for the Task Force, including our general directive. While we could easily overwhelm the process with goals, it would be the intent that we agree on 8-10 goals based on input and the Administrator's directive. Based on those identifications, we will determine a captain for each goal or segment, should we determine to combine some of these areas. To efficiently use our time, I suggest we allow that Captain to choose their resources. Kell intends to sit in on the meetings of these various teams. After the teams have formulated their strategies, we will reconvene as a group and hear the presentations. It will be each of our responsibilities to vet the strategies and be sure others are not warranted or suggest deleting some. Once these are set, the teams again will do individual work to prepare action steps, time frames and assignments. Our final meeting should then be to adopt the plan, agree on final form and prepare for its presentation. Once approved all we have to do is make it work.

This is intended to be as least time invasive as possible-three large group meetings and a number of smaller ones. We are asking Jim Woolford to send out to all of you the 58 section work paper that he, Cyndy Mackey and Byron Brown put together. This will allow a great jump start to each of our thought processes as far as perhaps some goals, some strategies and some steps. This is going to be a great effort. Thanks to all of you for your work to date and for that which you will be contributing in the

future

Subject: RE: AFS - GA FLY-IN AGENDA

Hi Sydney,

There are no ethics concerns with respect to this event. See the following for more complete details.

Best, Jennie for OGC/Ethics

White House Ethics Pledge

The White House Ethics Pledge does not allow political appointees to accept gifts from registered lobbyists. The persons extending the invitation are not registered lobbyists or lobbying organizations, therefore the Ethics Pledge is not implicated.

Acceptance of Free Attendance (including a meal)

Because the official has been invited to speak and present information on behalf of the agency, pursuant to 5 CFR 2635.204(g)(1), acceptance of free attendance and any meals provided on the day of the event is not considered a gift. The official's participation in the event is viewed as a customary and necessary part of his performance of the event and does not involve a gift to him or to the agency. While free attendance will cover a meal that is provided to all attendees, it does not cover side events, receptions, and other meals (like a speaker's dinner) that are not open to all attendees.

Financial Disclosure Implications

Because this is not a gift, there are no financial disclosure reporting obligations.

Location State Department, 5th Floor Reception Room (We recommend using the U.S. Diplomacy Center entrance at 330 21st St NW).

Since the President took office, the State Department has had significant engagement with foreign governments interested in U.S. energy policy and exports. Recognizing that there is a core group of us from across the interagency interested in these issues, I would like to invite you to join us for a small get-together at the State Department.

What: Energy-focused networking happy hour.

When: July 13, 2017, from 4-6pm.

Where: State Department, 5th Floor Reception Room (We recommend using the U.S. Diplomacy Center entrance at 330 21st St NW).

While several of us have met in some capacity, I look forward to meeting those that I have not, and I hope that collectively we can become an effective political tool for advancing the President's America First Energy Policy.

Please send RSVPs to me at SimpsonMM@state.gov <<mailto:SimpsonMM@state.gov>> .

Location DCRoomARN1332Poly/DC-ARN-OAR -- Call in number: (b)(6)

Show Time As Busy

This follows up on my email a couple of weeks ago about trying to set up a meeting with USWAG to discuss its petition and potential changes to the rule. It looked like this time worked for most people. It would be helpful to do a pre-meet to discuss options.

I expect USWAG will bring its outside counsel. Please invite DOJ. We can set up a call-in number if that is easier for DOJ.

Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive an invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Thank you, Robin

Subject Senior Leadership Council Meeting - Day 2

Location WJC-N 3rd Floor, The Green Room

Show Time As Busy

Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive an invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Thank you, Robin

Mr. Davis,

Attached are the briefing notes and the non-disclosure agreement, which will be signed at the conclusion of the briefing. I will have those printed out, so you don't worry about bringing them with you.

Below are directions to our office:

The NSI Program Team is located in the William Jefferson Clinton (WJC) North Building on the basement level. If you will be coming from Ronald Reagan Building or WJC South, East, or West, Please enter the building from the entrance next to the Metro Station.

You must have your badge as there is a security checkpoint upon entry. Once in, you can use either elevator next to the security guard desk, and proceed to the level "B". Once you exit the elevator, proceed to B400 through the double glass doors and use the phone located on the table on your left to call the NSI Program Team line at 202-564-1983 to be granted entry.

If you cannot find the office, please reach out to the NSI Program Team at 202-564-1983.

Please join me on this call if you are available to talk to this company which is in discussions to purchase a large, environmentally contaminated brownfield property in Michigan. They are in touch with

region 5 but want to form a relationship with a Trump appointee also.

Thanks,
Patrick Davis

WELCOME REMARKS – Sam Coleman, Acting Regional Administrator

WEATHER/STORM FORECAST –

NOAA tracks the storm and up-to-date information is available at
<http://www.nhc.noaa.gov/> .

MANDATORY EVACUTION UPDATE –

Update of local jurisdiction Reports

FUEL AVAILABILITY UPDATE –

Update of State Reports

STATE/TRIBAL FEMA ASSISTANCE REQUEST STATUS –

As of today, FEMA has not received any assistance requests from the states of Texas or federally recognized tribes. Texas Governor Abbott has declared state of disaster for 30 counties. Louisiana Governor John Bel Edwards declared a state of emergency for the entire state of Louisiana in anticipation of severe weather as a result of Hurricane Harvey.

EPA READINESS/PREPAREDNESS –

While EPA has not been formally tasked by FEMA at the request of impacted states or tribes, EPA is

SUPERFUND NPL SITE STATUS –

In preparation for severe weather impacts, EPA assesses conditions at the NPL Superfund sites in the storm's pathway to identify potential impacts and countermeasures. Following the storm and receding floodwaters, EPA conducts rapid assessments to identify damage at sites and initiate cleanup plans if necessary.

PRIMARY INDUSTRIAL FACILITIES –

In preparation for severe weather impacts, EPA assesses conditions at the major industrial facilities in the storm's pathway to identify potential impacts and countermeasures. Following the storm and receding floodwaters, spills and releases are reported to the National Response Center. NRC notifies US Coast Guard or EPA based on preapproved jurisdiction boundaries. EPA conducts follow up inspections and damage assessments in response to reports within EPA jurisdiction.

PUBLIC WATER SYSTEM STATUS –

About 300 Public Water Systems are in the path (red zone) of Hurricane Harvey in Texas. Water systems often have problems due to flooding or loss of power during Hurricanes. Region 6 has developed a tracking system for us to identify systems in the storm's pathway. Both Texas Commission on Environmental Quality and Louisiana Department of Health have uploaded their potentially impacted systems into Response Manager which enables planning for rapid assessments to restore water systems after the storm passes and flood waters recede.

EMERGENCY FUEL WAIVER STATUS –

The typical emergency fuel waiver request follows a path something like the following. An industry member will identify a failure in the fuel distribution system or at a refinery and raise it to Kurt, DOE and/or the state and Region. Since gas stations typically take deliveries two to three times per week, we normally have 24-72 hours before the system failure will lead to a retail shortage. In that time, the EPA/DOE team will hold calls with the potentially impacted state and industry to validate the issue and confirm relief is justified. Once an issue has been identified, the state air director on behalf of the governor will make a request for specific relief. The OECA team drafts a letter granting the relief for the Administrator's signature. DOE and OAR give concurrence on the letter and it is sent to the Administrator for signature. The signed waiver is quickly then disseminated to the impact states and industry members. The EPA press team will also issue a press release to increase awareness of the actions being taken to address potential fuel shortages.

COMMUNICATIONS UPDATE –

DHS Public Affairs initiated the National Incident Communications Conference Line on Thursday, August 24 and calls continue daily. The NICCL is a standing conference line designated, maintained, and supported by DHS Public Affairs as the primary means for interagency incident communications information sharing during an incident requiring Federal coordination. DHS Public Affairs provides guidance to Federal interagency public affairs headquarters staffs and affected authorities through the NICCL.

Subject: HOLD: OMB Meeting - Homeland Security Budget Discussion

When: Wednesday, August 30, 2017 3:00 PM-4:00 PM (UTC-05:00)

Eastern Time (US & Canada).

Where: OHS Conference Room - 6426C WJCN; Call-in: (b)(6)

Conference Code (b)(6)

We are rescheduling this meeting for Wednesday, August 30th.

Our OMB examiner, Jody Barringer, has requested a meeting with OHS, OLEM, OW and ORD to discuss some specific questions and concerns regarding the Critical Infrastructure Protection (CIP) and Emergency Preparedness portions of the FY 2017 Enacted Operating Plan Budget

and the FY 2018 President's Budget Request.

OHS will host this meeting and work to develop a combined briefing package for the meeting. In the next few days you will receive a draft briefing from OHS that will contain the latest budget numbers from OCFO and an outline for you to include information about your programs – with an emphasis on addressing Jody's questions.

OMB Issues:

* Jody seems to be focused on ASPECT and PHILIS and EPA's role as the Sector-Specific Agency for water utilities. More specifically, she wants to know:

* How the CIP and Preparedness resources are allocated and what the Agency plans to do with the resources we have in 2017 and may have in 2018?

* What is the strategy for complying with EPA's designated emergency response roles taking into account the significant reductions proposed in the FY 2018 President's Budget (i.e., how will EPA fill gaps and maintain our response preparedness work even though the FY18 budget contains several reductions).

* What are the impacts of the proposed CIP program elimination in the FY 2018 PB?

* If the FY 2018 PB becomes enacted, what would the impacts be to HS?

* What are the current agency/administration HS priorities?

Request:

We will be having our fall legislative fly in the second week of September. As part of the fly in, I was wondering if it is possible to schedule a briefing with you, or other senior EPA staff on September 12th to discuss various priority environmental issues with the Minnesota Pork Producers. Minnesota is the number two state for pork production, behind Iowa.

This would be primarily more of a “getting to know you” meeting with a general discussion on issues on the farm than any specific in depth focus on any single issue.

However, issues of note for Minnesota include the following:

- * Nutrients, the value of manure, and water quality standards.
- * Air Emissions Reporting from livestock farms
- * EPA’s NESHAP for Reciprocating Internal Combustion Engines (on farm backup diesel generators) 40 C.F.R. Part 63, Subpart ZZZZ

Attendees:

Michael Formica, National Pork Producers Council
David Preisler, Executive Director, Minnesota Pork
Jill Resler, Chief Operations Officer, Minnesota Pork
Lauren Servick. Director of Communications and Marketing, Minnesota Pork
Jay Moore, President, Minnesota Pork
Greg Boerboom, Vice President, Minnesota Pork
Ben Johnson, Minnesota Pork Ambassador
Daryl Timmerman, Board Member, Minnesota Pork

9/18/2017 - Update

EPA Colleagues –

I'm adding a few last-minute PowerPoint slides for those of you on the phone.

Dave Kling

EPA Colleagues –

I've scheduled a meeting on the nation's disaster recovery framework

and EPA's various recovery program activities, as indicated in my note earlier today (Tues., 9/12, which is attached).

My apologies for scheduling this meeting at noon Monday (9/18), just before the EPA Senior Staff meeting, but your busy calendars did not afford any good common time over the next week or so. The meeting is particularly important for Samantha, Lee, Patrick, Troy and other members of our political team, who have less experience with this subject, so if they (or their designees) are unable to attend, I'll reschedule.

My attached message includes several attachments, including a short summary and talking points on EPA's recovery program activities.

Finally, I've provided a call-in number for our Regional colleagues and others who must participate that way.

Call me at 202 564-0317 if you have questions.

David J. Kling, Associate Administrator for Homeland Security

U.S. Environmental Protection Agency (1109A)

Room 6426 William Jefferson Clinton Building North

Subject Transportation for OLEM's Briefing at OMB

Location WJC 12th St. Entrance

Show Time As Busy

Please note, due to the high number of attendees we have added a second vehicle for transportation.

Hi all,

Below, please find the transportation information for OLEM's Briefing at OMB next Tuesday. Please be there promptly at 8:30. We normally like to leave 45 minutes before the start of an OMB meeting in order to accommodate traffic and security at OMB. Because transportation does not leave earlier than 8:30 we can only have a half-hour window for this Briefing, so please be there by 8:30.

Jennifer, please forward this information to those from OLEM who will be attending the Briefing.

Date: Tuesday, September 26

Departure from EPA: 8:30 am from 12th street entrance

Destination: NEOB

Meeting: 9:00 AM to 10:00 AM

Room: Room 9258

Pick-up from NEOB: 10:15 AM

You'll arrive at OMB and tell the guard outside that you have an appointment and head inside to the desk. Everyone will show ID and be given a pass. Next you will go through metal detectors and proceed unescorted to the room.

Please let me know if you have any questions.

INFO ADDED-

HBA Meeting Topics (Just in 11/6)

* A simplified permit process for small lots- EPA's compliance template <<https://access.nahb.com/owa/redir.aspx?C=sjltJZihpNz6pJzMCb67Tu0P0thY0pg87v5LjIFADhIDTk6EzBvVCA..&URL=http%3a%2f%2fnahbnow.com%2f2015%2f06%2fnahb-helps-epa-simplify-stormwater-permitting-process-for-small-builders%2f>> for single-family homes in large subdivisions that could also serve as a streamlined permit template: it's concise and written in "builder language" because NAHB helped develop it.

* A "find it, fix it" approach- Rather than penalize first-time violators, EPA inspectors should provide compliance assistance during site visits and allow builders to correct minor infractions so they can do it right the next time.

* Better coordination among regulators. Multiple visits from local, state and federal inspectors to the same site can result in very different observations and citations. EPA needs to allow the states, not EPA, to play the lead role in stormwater enforcement.

* Continued participation in EPA's "Smart Sectors

* Specific examples of what our builders have experienced - Onerous paperwork penalties/fines
* End with how the city of COS is working with the industry – Travis Easton will give an overview of the program in COS and demonstrate the collaboration that has happened in the past/is happening today.

Good morning Stan.

Doug has a morning conflict but will discuss with him when he returns to see if he can make it there by 10:30. Would that work?

Hi Diane, I wanted to confirm Doug Benevento's appearance at the December 1 CMA Board Meeting. Doug and I have discussed the appearance which I think would last about 20-25 minutes. I think Doug's intention is to introduce himself, make a few brief remarks and take questions.

The Board meets on Friday, December 1 from 9-Noon. We can accommodate Doug's schedule during that time period. Just let me know what works best.

Our Board meets at the CMA offices, 210 16th Street, Suite 1250.

Please join the Federal Women’s and LGBT Special Emphasis programs in a panel discussion with Judge Daniel Taubman of the Colorado Court of Appeals and Professor Scott Skinner-Thompson of UC Boulder Law School on the Masterpiece Cakeshop v. Colorado Civil Rights Commission.

The panelists will discuss the potential impacts of the case, whose outcome could impact LGBT rights and other groups affected by discrimination based on religious beliefs. The United States Supreme Court will hear oral argument on the case on December 5, 2017. At issue is whether a Lakewood baker had a right to discriminate based on sexual

orientation in violation of Colorado’s anti-discrimination law, under his freedom of speech or free exercise of religion rights under the First Amendment. Subject Xanterra Food Recovery Challenge National Recognition - preliminary planning meeting

Location R8DEN-7108-Lupine/R8-Wynkoop
Show Time As Busy
Good Morning Patrick-

We appreciate your interest in presenting the Food Recovery Challenge National Recognition to our R8 partner. Virginia received a draft itinerary and schedule from Xanterra this week (see below) and therefore we thought we would get started on planning.

Xanterra has about a half day of activities planned for you and Virginia on 1/12/18. For this meeting, we can discuss travel logistics for the event and get an idea of how you would like us to help you prepare (briefing, briefing paper, talking points, etc.). My understanding is that OCPI will be coordinating with Xanterra on photo opportunities and other media possibilities and will keep us all in the loop.

I also understand that you may have other meetings that you want to schedule for this trip. Hopefully this preliminary meeting will get our trip firmed-up and allow you to plan any additional meetings that you are interested in scheduling while in Utah.

Here's the DRAFT Itinerary and Schedule for January 12, 2018 (final details TBD, times below are estimates):

January 11:

- * Arrive Saint George Airport from Denver

January 12:

- * Welcome Remarks (5 min, Xanterra)
- * Presentation of Plaque to Xanterra Resorts at Zion Lodge National Park (15 min remarks, Patrick)
- * Possible Participation in LEED Silver for new construction recognition (15 min, Xanterra)

- * Networking/Meet and Greet (informal Q&A possible, 30 min)
- * Tour of Zion Lodge Sustainability Operations (1-1.5 hours, Xanterra)
- * Possible photo opportunity

January 12 (pm) or January 13 (am):

- * Depart Saint George Airport to Denver

Please let us know if you have any questions or need additional information prior to the meeting.

Thank you,

-Kimberly

* Which documents does the CAG not have access to?

o On December 25 the CAG requested sampling results for excavation activities and for disposed hazardous waste. Denver responded that no hazardous waste was disposed. Regarding the sampling results, Denver responded that it was a CORA (Colorado Records Act) request. The request will cost a little over \$2000 to fulfill.

* Is there a document repository for the site?

o We and Denver have a website with site documents. The Valdez Perry library and our office are document repositories.

* Have the points made by the hydrologist member of the CAG been considered?

o Mr. Norris has not sent technical comments. Mr. Norris made comments in an email he sent on December 26. Those comments are related to the CAG behavior and exchange of information. Ms. Walsh sent a document on December 11 that Mr. Norris sent to, at least, her. The document contained Mr. Norris opinion of the November meeting. That document referenced other material that CCoD or I have no access to. CCoD responded to those comments on January 5.

* How and when will the CAG technical experts be included in our deliberations and planning at EPA?

o My proposed approach is that when I have a draft document, I will share it with the named expert. I'm still thinking what factors will play in determining how a proposed expert has the necessary technical knowledge. I expect that the expert will maintain its' review and comments limited to OU2.

* Has a TAG been requested by the CAG?

o The CAG requested a TASC. We brought the TASC coordinator in summer to talk to the CAG about their request. The coordinator told the CAG what they need to do to request the TASC. To this date the CAG has not done so. Every couple of meetings they ask about it and we respond that we are still waiting for them.

* When will the CAG receive the OU1 delist documents?

o The delisting process is a rulemaking procedure that compiles reports that support removing a site from the list. As such, there are no delisting documents to give to the CAG. We will announce the delisting with an opportunity to comment once the internal review is completed. The lead consult document is required by HQ when delisting sites that had lead as a contaminant. I will share that document once it has gone through our technical review.

Subject: Vasquez Blvd CAG

Hi Jesse, Jennifer and Ian,

As you predicted the Vasquez Blvd. CAG was contentious last night.

I have a few questions:

- Which documents does the CAG not have access to?
- Is there a document repository for the site?
- Have the points made by the hydrologist member of the CAG been considered?
- How and when will the CAG technical experts be included in our deliberations and planning at EPA?
- Has a TAG been requested by the CAG?
- When will the CAG receive the OU1 delist documents?

Could we get together and discuss this on Friday, January 19?

Thanks,

Patrick Davis

(UPDATED with Review Items from Karly)

SLT,

The next R8 Business Review will be held on Tuesday, February 20, 2018. (Monday is a holiday). Please complete the action items from our last meeting before then. This link <https://usepa.sharepoint.com/:x:/r/sites/R8/Region%20Collaborative%20Workspace/R8ELMS/Shared%20Documents/Draft%20Bowling%20Chart%20Region%20R8%202_9_18.xlsx?d=w4a0d8409b25e48a8afe70e6c0cd31dbf&cs f=1> will take you to the Draft R8 Bowling Chart on the SharePoint site. I've

populated the measures that were shared with leadership last week. These are still draft and may change. I also added any measures SLT sent me.

The R8 Lean Management System SharePoint Site
<<https://usepa.sharepoint.com/sites/R8/Region%208%20Collaborative%20Workspace/R8ELMS/default.aspx>> is up and running. This site is where due dates are listed, POCs are listed, and bowling charts will be kept.

As a reminder, the business review meeting is a monthly opportunity to evaluate your office's performance against its Breakthrough Measures from the strategic plan, Operational and Sustainment measures from the mission-measure workshops, and the Agency-Wide and Regional Office measures still under development. All of these measures will be tracked through the use of your office's bowling chart and will provide us with a comprehensive view of your office's performance while allowing us to take action to solve small problems before they become large problems (tracked using the countermeasure report). Video recorded training and slides on the business review process are available at the EPA Lean Management System (ELMS) Intranet site <http://intranet.epa.gov/lean/lms/resources.html> .

HEAL Utah Scott Williams scott@healutah.org
<<mailto:scott@healutah.org>> , 801.355.5055

<http://www.healutah.org/>

Harnessing the power of grassroots advocacy and smart policy research, HEAL engages in legislative and regulatory settings to champion clean air & clean energy, and protect Utah from nuclear, toxic, and dirty energy threats. HEAL Utah works to ensure that the public — not polluters — plays a meaningful role in determining whether our state will serve as an enabler for a toxic economy, or one that promotes a healthy environment in which to raise our families. How do we do this? HEAL attends regulatory and legislative meetings where critical decisions are being made. We research solutions and pitch them to state leaders and other coalition partners. We pore over obscure documents and translate technical jargon into actionable information. We work with the media to get the important issues covered.

These groups take a strong interest, sometimes adversarial, in EPA activities in Utah:

Southern Utah Wilderness Alliance, Scott Groene, Executive Director, 435.259.7049

Since 1983, SUWA has been the only independent organization working full-time to defend America’s redrock wilderness from oil and gas development, unnecessary road construction, rampant off-road vehicle use, and other threats to Utah’s wilderness-quality lands.

Physicians for a Healthy Environment, Denni Cawley, Executive Director, 385.707.3677

Utah Physicians for a Healthy Environment (UPHE) is the largest civic organization of health care professionals in Utah, with over 340 members, primarily physicians, but also other health care professionals, biologists, toxicologists, engineers, air quality specialists and the general public. We are concerned about the health risks present in our environment, based on the overwhelming, convincing evidence in the medical literature demonstrating a wide array of chronic diseases are more common among people who are exposed to more air pollution, particulates especially.

Subject Meet and Greet with Dr. Brian E. Shiozawa, Regional Director of Health and Human Services and Mr. Douglas Benevento, Regional Administrator, U.S. EPA

Location RA Office

Show Time As Tentative

Anita, Diane Moon, (303) 312-6532, will follow-up on this invite for Dr. Brian Shiozawa with Mr. Benevento.

The U.S. EPA Region 8 is located one-half block from Union Station. We are at 1595 Wynkoop, on the corner of Wynkoop and 16th, between Office Depot and a muffin shop.

Come in the revolving door. Allow about 15 extra minutes because our security is similar to the airport. Our security personnel will have you show a government photo I.D., empty your pockets, scan your briefcase, and have you walk through a magnetometer. Then you will go to a reception desk on the ground floor. The receptionist will call our office to come pick you up, as you have to be escorted the rest of the way.

Our building is a short 2-block walk from the Union Station light rail stop, or a quick ride on the 16th St. free mall bus. Transportation from/to the airport is available on the "A" train to Union Station. Schedule at www.rtd-denver.com <<http://www.rtd-denver.com>> . The trip is about 40 minutes.

Public parking is available at 1515 Wynkoop and 1660 Wynkoop.

EPA Senior Leaders,

I am reaching out to you to inform you that over the next month I will be scheduling time on your calendar to discuss the E-Enterprise for the Environment (E-Enterprise) program. The goal of the meeting will be to 1) provide background on the E-Enterprise effort, 2) highlight connections with the EPA strategic plan priorities, 3) spotlight E-Enterprise projects, and 4) listen to your ideas for leveraging the E-Enterprise partnership and project platform.

The E-Enterprise program champions activities for improving and streamlining processes and optimizing technology to create efficiencies in shared governance practices. The new Strategic Plan for the Agency references E-Enterprise as a working model of cooperative federalism that brings together EPA, states, and tribes as co-regulators. I will be interested in exploring how E-Enterprise can work with your AAship or region to further these agency-wide goals.

I plan to hold meetings with the Headquarters program offices, and Deb Szaro, DRA for Region 1, will join me for meetings with Regional senior leaders. Andy Battin <mailto:Battin.Andrew@epa.gov> , Director of the E-Enterprise program, will also join us to discuss the benefits and goals of the E-Enterprise model.

We look forward to meeting with you in the near future. Please let me know if you have any questions.

Thank you,

David

Deb, Martin, Carl, Monica... Doug doesn't believe any others would have issues to discuss with her.

"I'm heading out to the West Coast the last week of March and plan to stop in Denver on the 28th. I'd like to use that opportunity to see the Regional Office (I've never been) and meet with you and your team to catch up on air related issues. Based on my schedule, I'm available the morning the 29th. There are host of issues we can discuss, including:

- * Uintah
- * Exceptional Events/wildfires

- * Uranium In situ Rule
- * Update on any of the priority issues – CPP/MATS/NSR ...
- * Oil and Gas Enforcement issue”

 Hello RLT,

Just wanted to alert you to this great opportunity to attend an event with the engaging speaker Paula Stone Williams. Paula will be in the regional office next week – check out her Ted Talk that I think you will find illuminating. I hope you all can attend.

The Federal Women’s and LGBT Programs will be hosting and they are looking for RLT volunteers to provide refreshments. I plan to bring some and wanted to reach out to you and see if anyone else would be interested in making a donation of food for this event. Please, just drop

me an email if you are interested.

Thanks so much,

Sandie

Subject Meeting w/Kinder Morgan

Location RA Confernece Room

Show Time As Busy

Just an update – they made contact this morning, 4/13, to request info on EPA participants.

Kinder Morgan wishes to discuss whether produced water associated with CO2 extraction for use in enhanced oil recovery should be regulated under the Class II Underground Injection Control (UIC) wells regulated by the State of Colorado rather than Class I UIC wells regulated by EPA. In the past, EPA has determined that these disposal wells must be class I but Kinder Morgan disagrees and believes that Class II status comports with the regulatory language, is consistent with how produced water from traditional oil and gas extraction is treated and is consistent with other states' interpretations. In addition, this change would be consistent with President Trump's Executive Orders making it clear that the Administration's policy is to promote energy development and economic growth by promoting common sense regulator reform and respecting the proper role of the States in implementing and enforcing regulations.

Attendees:

Jessica Toll, our Assistant General Counsel, Kinder Morgan

Ken Havens, Vice President, CO2 Engineering, Kinder Morgan,

Jennifer Biever, Outside Counsel with Hogan Lovells (representing Kinder Morgan)

 Added Chris and Mark to the meeting at Suzanne Bohan’s request.

Referred by Kell Kelly.

So our first topic with Doug is to talk about how TU can increase our partnership with TU and the EPA regional office to expand the amount of abandoned mine clean up work we can do in CO and the other EPA states in the region, with a special emphasis on how we might use

existing and new Good sam tools to accomplish that work.

Second, Ty Churchwell has been a real community leader in developing support for cleaning up mine pollution in the Animas River, which flows through Durango. He was very involved in our response to the Gold King spill. He led the community effort to raise the Superfund priority of the Gold King spill with EPA, a step we were very pleased that EPA took. We'd like to talk about the importance of the water treatment facility near the Gold King site, and our strong desire to see EPA move forward aggressively with the Superfund clean up. The Animas is extremely valuable to Ty, TU members in Durango and to the communities in the watershed.

BLM is considering background at each mine site and NOT drainage wide.

EPA objectives: Minimize human and ecological risks Improve water quality Stabilize source areas Prevent uncontrolled releases

Idea from Doug Jamison with CDPHE: connect the American Tunnel to the water treatment plant and remove the bulk heads from the mines connected to the American Tunnel. Doug stated that the Gold King Mine, Red and Bonita Mine, and the Mogul mine were not filled with water before the American Tunnel bulkhead was installed. The American Tunnel is the lowest tunnel in the mine system.

Dear State and Federal Restoration Managers and Regulators,
Please join us for the 2018 Air Force Central Regional Environmental Restoration Summit which will be held 9-10 May 2018 at the Homewood Suites Denver Downtown-Convention Center in Denver, CO. The Air Force Summit is hosted by Mr. Edwin H. Oshiba, SES, Director of the Air Force Civil Engineer Center (AFCEC) and will be conducted by the AFCEC Legislative and Regulatory Engagement Division.

We are working to grow and develop positive working relationships with our regulatory partners. We invite you to participate in the Air Force Summits to interact and share your perspective with Senior Leaders and Air Force Environmental Restoration Staff for EPA Regions 6, 7 and 8. This year's Summit will provide further discussion of Optimized Restoration Contracts (ORCs), Emerging Contaminants, Regulatory Partnerships, and a variety of other topics impacting the Environmental Restoration Program.

We value your input and want to ensure that the Summit provides a well-rounded forum for information exchange and issue discussion. Please assist in further developing our agenda by completing a brief survey at: www.AirForceSummits.com

Show Time As Busy

I would like an opportunity to get him [Patrick} and the RA to visit Fort Carson. Fort Carson's is program is one of the best within the DOD. They run a great sustainability program that only enhances their environmental and military mission.

The best place for Mr. Benevento to meet the installation staff is at the Fort Carson Visitor Center at 6012 Nelson Blvd, Fort Carson, CO 80902. Once he turns off Highway 115 onto the installation follow the sign on the right into the visitor center. He will park in that lot where he will be met by the installation staff in a van.

I understand his drive is approximately 90 minutes, what time would he like to meet at the installation?

 Hi Dana and Joy,

If you are available please attend the mining smart sectors meeting on August 9th at 9 a.m. at the Colorado Mining Association's office, 216

16th Street, St. 860 in Denver.

Thanks,

Patrick Davis

Good Afternoon Patrick: I think we confirmed August 9 a couple months ago for you and folks from your office to visit with the CMA Coal, Hardrock and Uranium Committee meeting about the Smart Sectors program. We start at 9:00 AM, and we have a new suite #, 860 in the same building we reside in now, 216 16th Street.

Let me if we're still on for the meeting, and if there are any new materials I should distribute. Did you tell me Doug Benevento was planning to attend, or did I dream that up?

Subject UT mining smart sectors roundtable

Location Zermatt Resort, Midway, UT

Show Time As Busy

I just wanted to follow up with you regarding the stakeholder dialogue with EPA will tentatively set for August 14.

Our 103rd Annual Convention agenda is close to being finalized, and I have this gathering penciled in for the afternoon of Tuesday, August 14.

As a reminder, our annual convention is being held August 14-16 at the Zermatt Resort in Midway, UT.

The afternoon of August 14 is a perfect opportunity to bring environmental professionals from the mining industry together with EPA staff to have a conversation.

I hope this date still works for EPA staff. I look forward to hearing back from you and working together to facilitate a productive meeting.

Regards,

Mark

Patrick,

90 minutes works for us. I would expect to have at least 20 industry environmental professionals in attendance, but I will know the precise number as we get closer to the date.

We try to time our short courses/workshops on Tuesday afternoon to end just before the convention's Welcome Reception that evening in our Exhibit Hall. The Welcome Reception begins at 5 pm, so I would like to schedule this roundtable discussion for 3:00 pm - 4:30 pm if that works for you.

Everyone is welcome to stay and attend as much of our convention activities as their schedule allows. Following the Welcome Reception Tuesday evening, we will have the main day of our convention on Wednesday, August 15, beginning at 9 am and ending with an outdoor Closing Reception at 5 pm.

When you can, please send me the names of the EPA staff that will be coming so we can have their registration completed in advance.

If Administrator Benevento is coming, I also would like to invite him to address the convention attendees during our August 15 general session. There would be approximately 200 in attendance on that day.

For your information, we have a block of discounted rooms reserved at the Zermatt Resort for \$139/night. Reservation can be made at this link <https://www.wyndhamhotels.com/trademark/midway-utah/zermatt-utah-resort-and-spa/rooms-rates?brand_id=TQ&checkin_date=8/13/2018&checkout_date=8/15/2018&useWRPoints=false&children=0&group_code=10J5ZL&adults=1&rooms=1&radius=25&brand_code=BH,DI,RA,BU,HJ,KG,MT,SE,TL,WG,WY,WT,WP,VO,DX,TM,CE,AA&PriceFilter=0-2147483647&latitude=40.5121772&longitude=-111.4743545> .
