

DUTCH BOY AND CARTER WHITE-LEAD

Soft Paste and Heavy Paste

We also handle Dutch Boy flating oil which is a special oil designed for use with heavy paste white-lead to produce articles and designs in the most perfect manner. It is used for all interior and wood work. Some of the finest interior decorating jobs in the country have been done with this combination. The beauty and charm of the finish that this paint gives is all-around economy, and it is the most durable and lasting of all types of interior work. Other uses for Dutch Boy flating oil are as a blending, glazing and bronzing liquid.

Quart, Gallon and Five-Gallon Cans

WHETHER your preference is for the Dutch Boy or the Carter brand of white-lead, you can get it from us. We carry both of these popular brands, which are well known for their purity, uniformity and all-around excellence.

Sold in two forms—heavy paste and soft paste. The latter is ground with a little

more oil than the heavy paste and can be thinned to brushing consistency at the rate of a gallon of paint a minute. It is a great time and labor saver. The soft paste, like the heavy paste, is pure lead-in-oil, containing pure white-lead and pure linseed oil—*nothing else*.

100 lb. kegs; 50, 25 and 12½ lb. pails.
