4. Beslissingen		
4.1. FOR DECISION		
	4.1	Raming Budget 2021 overeenkomstig art. 22 van het SA REACH The BCR members agree with the Budget foreseen for 2021.the document was uploaded on the sharepoint of the meeting (2 weeks in advance) . The BCR secretariat will send the correspondents invoices to the parties.
	4.2	WCSR 2021 update of the members Presentation of the current status of the WCSR. The BCR members agree with the proposed renewals (3) , withdraws (2) and appointment of 2 new members . The REACH CA will prepare as soon as possible the ministerial decree for

		it. asked if the WCSR needs more experts/area of expertise. will send the expertise needed and if members of the BCR have experts in the field PL will investigate their interest in the work of the WCSR.
	4.3	Draft PV du 18-05-2021 ad-hoc BCR on microplastics Use at industrial sites / reporting needs ? La question reste sur le contenu du rapport – à éclaircir dans la proposition de la COM car ces reporting seront là pour identifier les problèmes restants mais il faut que la charge reste proportionnelle.
○	4.4	- AfA's OPE ○ Waste interface for OPE ▪ (Covid) selftests (in the buffer – but temporary derogation July 2022) > legally on the market . ▪ Syringes & cartridges ▪ Enforcement of waste disposal ○ OPE & NPE - surface & wastewater monitoring: analytical methods (LOD, LOQ) Covid) selftests (in the buffer – but temporary derogation July 2022) > legally on the market . HIV selftest might also contain these ED's announced that such a dossier will be tabled in the future. FAGG analyses the 'nasal swabs' for ED's, most likely phthalates

		For syringes + cartridges – is there still any landfilling in BE? Waste disposal info of companies : is it easily controlled by the inspectorate? OPE-NPE analytical methods have high LOD-LOQ > new methods (CEN?) Hospitals have high volumes coming out of some of these analytical measurement machines using IVD test kits. These type of dossiers will follow in the future. Due to the recital discussion (general recital on suitability of alternatives) > the voting is on hold for the moment .
	4.5	- Other AfA's - o DEHP review report Plastic Planet Recyclage IND - linked with a court case (the initial authorisation should not have been granted = opinion advocate general, court case still to be concluded) ED properties needed to be take into account in the SEA route (now adequate control for the R!) DUs uncertainties in the dossier on the conditions ! > economic feasibility ? but COM consider that the burden of proof is discharged but reduction of the review period (> Jan 2023- report for June 2022) ➤ First: no positive impression of the dossier - o Acton diglyme 1 & 2 It's the old dossier (without adequate control) + also the new dossier (with adequate control due to improvements) - o Thyssen CrO3 Cancer excess risk workers was very high > abstaining

		○ Recitals suitable alternatives (@) Discussion with the COM (+ DE and FR, SE, DK, ...) COM will abandon including the same recitals automatically, but they will be chosen, case by case. -The notion of “reasonable profit margin” has been removed.	
4.2. FOR DECISION (BCR WRITTEN PROCEDURE) : FOR ENDORSEMENT

5. AOB	5.1	Inception REACH -CLP - FOR INFO The REACH and CLP CA has send 2 comments during the PC . the content of it is online available .	
	5.2	Planning 2021 WASO – For INFO	

		The representative of WASO presents the workplan of FOD WASO for the year 2021 linked with REACH and chemicals .
	5.3	Feedback > open session(for DISCUSSION) /Microplastic= RAC et SEAC cherry picking des infos> IND mais DETIC aussi dans sa présentation 3 dossiers soumis en OCT (> rapporteur > BPA + BE dans BPS ? intérêt) = Q sur cosmetics Make up – microplastics = solid Si soluble > derogation. La demande sur PFHxA sera envoyé vers KREAB pour le secteur filtration. on microplastics pas très honnête dans ses arguments E-Commerce à contrôler. Lors de la réunion début du mois pour l' Accord volontaire BE sur les cosmétiques(microplastiques) DETIC avait présenté une vision bien plus positive de la situation .
