

1 was requested by Mr. Lockhart. Mr. Lockhart is one of
2 our maintenance supervisors at the technical center
3 there in Granville.

4 The purpose of this study was to determine
5 the presence or absence of asbestos, and it says under
6 introduction, the sample material labeled Kaylo bulk
7 was submitted to inorganic materials analysis
8 laboratory for asbestos analysis.

9 And the conclusion, the microscopic
10 examination confirms that the presence of a low
11 concentration of amosite in Kaylo -- in the Kaylo
12 material.

13 Q Now, when did Owens-Corning take asbestos
14 out of Kaylo?

15 A We took asbestos out of the Kaylo product
16 line in 1972.

17 Q How come you got a 1984 document there that
18 talks about asbestos in Kaylo?

19 A Well, this was an abatement work that we
20 were doing at the technical center at the time.

21 Q Tell us what you mean by abatement program?
