Attention: Mr. J. R. Fitzgerald.

Gentlemen:

We have your inquiry of July 14th in connection with Tetra-Ethyl lead poisoning.

We would suggest that you communicate with Dr. Robert A. Kehoe of the University of Cincinnati, College of Medicine, Cincinnati, Ohio, stating your problem. We know that he has made a careful study of this subject and has written a great deal of the existing literature regarding Tetra-Ethyl lead poisoning.

Very truly yours,

R. R. ALDEN
