Mr. Dave Fisher
100 Woodlawn Avenue
Bldg. 11
General Electric Company
Pittsfield, Massachusetts 01201

Dear Dave:

As per your phone request of October 12, we have enclosed with this letter a copy of our revised "Monsanto Methodology for Aroclor" packet for your use. It presents a clearer picture of how we are now analyzing environmental samples for PCB's and represents some minor procedural alterations we have made based upon the experience we have gained in the past year or so.

Sincerely,

E. S. Tucker
Research Group Leader
Analytical Chemistry Group
