CHEMICAL MANUFACTURERS ASSOCIATION

February 9, 1993

Dear Vinyl Chloride Research Coordinators:

The September 1992 ATSDR Data Needs for Vinyl Chloride mentions two on-going epidemiologic studies on page 29. I received the enclosed information on those two studies from Mr. Bill Henriques of ATSDR.

Dr. Bob Hinderer and I talked to Dr. Earle Nestman of CanTox about a proposal to prepare a critique of the ATSDR profile on VC. I expect to receive his bid in the next few weeks and will send it to you for your comments. I will schedule a conference call to discuss the CanTox proposal towards the end of March.

Sincerely,

A handwritten signature in cursive script that reads "Has Shah".

Hasmukh C. Shah, Ph.D.
Manager, Vinyl Chloride Panel
