Subject Asbestos Training

Copy to

The employees from the Construction Department attended an asbestos training course on April 8, 9 and 10, offered by the National Asbestos Training Center, the University of Kansas.

I have received the certificates for ten employees who completed this course. They also took a test at the end of the training session. I have received the results of the test for nine out of the ten employees. Please check with Mr. Snodgrass if he received his test results directly from the University of Kansas, because some employees have in other locations. I am maintaining a file with copies of the certificates and the test results.

Please forward the certificates and the test results to each employee who attended this training. Also, please make a copy of Mr. Snodgrass' test results and send it to me for my file.

Thanks,

Manhar A. Patel
