Dear Jerry

Return of Monsanto Pydraul with PCB's

As you know, our Ralston Purina plants have been returning Pydraul fluid with PCB's to your Sauget, Illinois plant for disposal. It was our agreement that you would give us full credit or refunds for all unused Pydraul returned to your Sauget, Illinois plant.

Here is a listing of the unused Pydraul with PCB's returned to your plant up to this date:

Ralston Purina Plant	Person	Amount Returned	Grade Returned
✓ Mechanicsburg, Pa.	Ernie Garvin	108 gallons	135
Jackson, Miss.	Larry Pedrick	8 gallons	AC
credit - ✓ Oklahoma City, Okla.	Ray Malicoat	108 gallons	135
✓ Gonzales, Texas	Jerry Hill	54 gallons	312
credit - ✓ St. Joseph, Mo.	Virgil Whaley	54 gallons	135
Wilmington, Del.	John Kisters	25 gallons	AC
No credit - ✓ Lincoln, Nebraska	John Liddick	108 gallons	135 312-A
credit - ✓ Harrisburg, Pa.	Francis Parsons	54 gallons	135

Please process these for refund and itemize the quantities for each plant so that we can insure proper credit is given each differently located plant.

Most of the above plants have already ordered replacement Pydraul with either an "A" or "B" suffix.

I expect that most all plants have now returned their Pydraul with PCB's, however, it is possible that we might have one or two more shipments come in later.

		Pydraul	Net wt.	
credit 3/10	2 drums	135	674 165	Oklahoma City
credit 3/24	1 drum	135	525 165	Harrisburg, Pa. (Shiremanstown)
No credit 4/18	8 drums unmarked no seals		3600 165	Lincoln, Nebr.
credit 5/6	1 "	135	550 165	St Joseph, Mo.
