**A timely tip
to income
property owners:**

PRESENT income tax regulations permit you to deduct the entire cost of repainting your farm and other income property as a business expense in computing your 1944 income tax. (No deductions allowed for repainting your own residence; that's just a good investment.)

So beat the December 31st deadline by getting your work started NOW and completed before winter rains arrive in earnest. Do the work yourself, if you're handy around the house, but be sure to use Martin-Senour LONGER LASTING paints—the paints that give you in two coats a better, more permanent job than ordinary paints do in three coats. Materials for the average home, two coats..... **\$29.10**

(INCLUDING: 3 1/2 gals. Martin-Senour Primer, 3 gals. Martin-Senour House Paint, 1 qt. Screen Enamel, 1 qt. Porch and Floor Enamel, 1 qt. Outside Trim, 1 3/2" Paint Brush, 1 1 1/2" Paint Brush, 1 lb. Putty, 1 gal. Solvent Thinner.)
