WHITTAKER CLARK &
DANIELS

Mr. Clarence U. Driscoll, President
Whittaker, Clark & Daniels, Inc.
1000 Coolidge Street
South Plainfield, NJ 07080

Recently we informed your company that one of its products had been selected for analysis as part of The Cosmetic, Toiletry and Fragrance Association, Inc. Nitrosamine and Nitrosating Agent Review. A copy of our initial letter is attached. The analytical results for your product are as follows:

1. Bentonite USP, Lot #20779 - 1.0 (ppm) Nitrite recovery at 10 ppm level, 7.62 (ug) 76.2%
2. Hydrous Magnesium Silicate, Lot #R0223 - 1.6 (ppm) Nitrite
3. Hydrous Magnesium Silicate, Lot #R0281 - 1.4 (ppm) Nitrite
4. Hydrous Magnesium Silicate, Lot #R0185 - 1.5 (ppm) Nitrite

As we stated in our original letter, the laboratory results relating to your product constitute neither an endorsement nor a condemnation of your product by CTFA. These results do not show, of course, whether other batches of your product would yield similar results. These results apply only to the specific sample tested, and must not be taken to represent a usual, customary, or average value. If you have in your possession any information or data which reflect on the reliability or accuracy of the laboratory results and you would like to submit such information or data to CTFA for consideration by the Nitrosamine Task Force, you should send the information to: Coordinator, Nitrosamine and Nitrosating Agent Review, CTFA, 1110 Vermont Avenue, NW, Suite 800, Washington, DC 20005. Please be advised that CTFA cannot guarantee the confidentiality of your submission if you choose to make one since it must by necessity be considered by the Nitrosamine Task Force. Also, you must agree in writing to waive the confidentiality of the analytical results pertaining to your product or products if this information is necessary to the understanding of your submission.

Sincerely,

Ronald H. Thomas, C.P.A.

The Cosmetic, Toiletry and Fragrance Association, Inc. is conducting an analytical program designed to survey cosmetic ingredients for nitrosamine and/or nitrosating agent content. This firm has been engaged by CTFA to ensure the confidentiality of the program. A copy of the CTFA procedures governing this program is enclosed.

A sample of one of your company's products (Hydrous Magnesium Silicate Lots #R0223, #R0281, #R0185) was selected for analysis as part of the CTFA program. (If more than one sample was collected, or if samples of more than one product were collected, you will receive a separate letter for each sample.) I have now received the laboratory report on this product. These results are completely confidential. Neither the CTFA nor any other company will ever be able to correlate the laboratory results with the name of your company. The laboratory under contract to CTFA does not know the origins of the samples it analyzes.

The only information which I am providing to the CTFA for each sample is the sample code number, the chemical name of the ingredient, the shipping history of the particular ingredient involved, a code number representing the results of the laboratory analysis, along with a unique code number which permits tracing the history of the sample.

I have been instructed by CTFA to inform you that, under the procedures of the review, you will receive a copy of the laboratory results for your product. To keep this information confidential, kindly provide me in writing within 14 days of the date of this letter the name and address of the person within your organization you designate to receive the laboratory results. If you have not responded within 14 days, I will send the laboratory results to you at the address on this letter.

The laboratory results relating to your product constitute neither an endorsement nor a condemnation of your product by CTFA. These results do not show, of course, whether other batches of your product would yield similar results. These results apply only to the specific sample tested, and must not be taken to represent a usual, customary, or average value.

-2-

Should you wish to have a sample of your product, supplied by you and at your expense, analyzed as part of this program, please contact CTFA for instructions for your participation.

I am authorized only to respond to written requests for information and not to engage in oral discussion about any aspect of this program.

Sincerely,

Ronald H. Thomas, C.P.A.
