Dole No. 1A Vari-Vent Valve is designed to be part of a room-thermostat-controlled oil, gas or stoker fired gravity steam heating system. Vents air extra fast. Permits comfortable heating with lower and more economical boiler pressures. On systems using this valve throughout, all radiators are heated quickly with only ounces of pressure rather than the usual pounds.

Also **BALANCES** distribution of heat to radiators; gives definite straight-line control—any venting speed between virtually closed and wide open. Large and distant radiators heat as rapidly as those close to boiler. Tamper-proof—can be set and locked. Easily installed on any cast iron radiator. Finished in bright chromium finish.

No. 1A Vari-Vent Valve

No. 1B
Vari-Vent
Air Valve

No. 1C
Quick Vent
Float Valve

No. 1B Vari-Vent Air Valve on each convector for **BALANCING** automatically fired gravity steam convector installations.

No. 1C Quick Vent Float Valve for mains of automatically fired gravity steam installations.

Valves at Right (top to bottom)

No. 3 Air Valve for all types of gravity steam installations operated at any pressure up to 15 lb. Positive seal against water.

No. 3C Air Valve, all purpose straight type. Particularly recommended for unit heaters.

No. 4 Quick Vent Valve, for mains ending 18 in. or more above boiler water line.

No. 5 Quick Vent Valve. Positive seal against water.

No. 2B Vacuum Valve for vacuumizing gravity steam installations.

Valves Below (left to right)

No. 14 Key Valve for venting concealed radiators and convectors of hot water heating systems.

No. 1933 Air Valve. Low cost, high quality and performance.

No. 6B Vacuum Valve for quick venting main of vacuumized systems.

No. 2B Vari-Vent Vacuum Valve for **BALANCING** vacuumized gravity steam installations.

Write the Dole Valve Company for a handy Selector Chart which indicates the Dole Air or Vacuum Valve most suited for a particular need.

OVER 500 DIFFERENT JENKINS VALVES
COVER EVERY HEATING AND AIR CONDITIONING NEED

To adequately describe the complete Jenkins line of valves requires a Catalog of more than 300 pages. There are over 500 different types and patterns of valves that bear the trusted "Diamond" trade mark. Practically speaking, Jenkins can furnish any valve that you may require for plumbing, heating, air conditioning, general industrial or engineering service.

General Classifications of Jenkins Valves Include—Bronze Valves fitted with Jenkins renewable composition disc. Bronze Regrind-Renew Valves with bevel and plug type seats. Bronze Gate Valves. Iron Body Valves fitted with Jenkins renewable composition disc. Iron Body Regrinding Valves. Iron Body Gate Valves with solid wedge and double disc parallel seats. All-Iron Valves. Cast Steel Gate, Globe and Swing Check

Valves. Electrically and Hydraulically Operated Valves. Radiator Valves. Fire Line Valves. Quick-opening and Self-closing Valves, Needle Valves, Y Valves, Solder-End Valves, Stainless Steel Valves.

Other Jenkins Products Are—Colored Valve Wheels with or without service markings molded in relief letters. Composition Valve Discs exactly suited to service conditions. Sheet Packing. Gaskets. Moncrieff Scotch Gage Glasses.

JENKINS VALVES ARE SOLD BY GOOD SUPPLY HOUSES EVERYWHERE
