Attach.

AGREEMENT

THIS AGREEMENT, made and entered into this 18th day of May 1976 effective as of the 9th day of January, 1976, by and between THE TIMKEN COMPANY (hereinafter called "Owner") and KAISER ENGINEERS, INC. (hereinafter called "Kaiser Engineers").

WITNESSETH

WHEREAS, Owner desires Kaiser Engineers to perform engineering services (hereinafter called the "Services") as described hereinbelow for an electric furnace dust collection system and a roof evacuation system (hereinafter called the "Project") at Owner's plant at Canton, Ohio; and

WHEREAS, Kaiser Engineers is willing to perform the Services upon the terms and conditions hereinafter set forth.

NOW, THEREFORE, it is agreed by and between the parties hereto as follows:

ARTICLE A - SCOPE OF PROJECT

Section A-1. The Project consists of a side draft hood dust collection system for a new 22 ft. diameter electric arc furnace to be installed in the Owner's Canton, Ohio plant and a roof evacuation system for the building extension to be built to house the new furnace. The furnace dust collection system and the roof evacuation system are to be tied into the plant's existing dust collection system which will be augmented by additional baghouse and fan capacity.
