INSTRUCTIONS

The groupings of synthetic organic chemicals for which shipment values are to be reported on line 1-22 below, correspond to similar classification groupings for which data are collected by the United States Tariff Commission. The related Section of the U.S. Tariff Commission Report is shown in column (B-3). Commercial shipments reported for this plant (column (E) minus column (G)) for each product grouping when combined with shipments for other plants of your company should, in most instances, approximate the sales figures reported to the U.S. Tariff Commission.

Column (E), Lines 1-22 - Do not include chemicals produced and used at this plant in the manufacture of such products as antifreeze, pesticidal preparations, etc. Products shipped as antifreeze, pesticidal preparations, etc., should be reported in column (E) on the specified preprinted product lines or, if not separately listed, on lines 81-82.

Report totals based on net selling values, f.o.b. plant. Net selling values should not include discounts, allowances, freight charges, and excise taxes.
