	L. Sackett	
	J. Yoder - ITT	

Subject: Program for Trionized Turf Builder
as it Relates to Vermiculite

1. Follow up and resolve difference in Grace and McCrone analysis.
2. Determine if Dr. Clark Cooper of Equitable Life Environmental Consulting Lab (tel. 415/845-355) can serve as a consultant on evaluating this problem.
Dr. George Wright possible second choice.
3. Develop testing protocol for both inside and outside lab studies.
 - a) 1 to 8x rates
 - b) Check TB, TB Plus 2, Halts, TB Fe.
 - c) Spreader
 - d) 10,000 vs. 40,000 sq.ft. plot areas.
 - e) Type ore could be important - 60% American, 40% African
4. House Plant Fertilizer
Collect air and analysis over house plant pots.
5. John Yoder to check Perlite
6. Request that McCrone labs identify fibers for certain samples
