Mr. Byron Burns
Group Foreman
Monsanto Polymers & Petrochemicals Co.
P. O. Box 711
Alvin, Texas 77511

Dear Byron:

As a result of our meeting Thursday, We would like to make several recommendations for immediate implementation with regard to our asbestos safety program.

- ✓ 1. Comprehensive pre-employment, annual and post employment medical examinations to be made.
2. Respirators, coveralls and gloves to be worn during all insulation stripping jobs.
3. Old asbestos insulation to be disposed of in Monsanto's dump rather than in dumpsters.
4. Monsanto to conduct a monitoring program for air-borne asbestos fibers during stripping jobs.

We will immediately implement Number 1 and request your help in implementing Numbers 2, 3 and 4. As we discussed, we will develop a written compliance procedure incorporating these and other items by October 1st.

Very truly yours,

MUNDY INDUSTRIAL MAINTENANCE INC.

David Marchand
