Mr. George Wilson

APRIL 15, 1974

MR. T. C. WALKER
POTTSTOWN PLASTICS

G. D. CROSS

As the representative of Firestone on the main ORC Occupational Safety & Health Standards Group, I have just received the attached letter from the ORC Staff in Washington. I believe your Dr. Brookman attended the ORC PVC Task Force meeting on April 9, 1974, and participated in the discussions that led to the conclusions pointed out in this letter from ORC.

Dr. L. H. Ballou has reviewed the proposal and feels that it is technically sound. However, we feel that any decision to participate in supporting the proposed study should be made by you since your organization certainly has the most at stake.

Although no one from Firestone is named on the steering committee, I am sure that ORC would accept an addition to this committee from Firestone should you wish to nominate such an individual.

We are being asked to advise ORC of our decision relative to supporting this project as soon as possible, so we would appreciate hearing from you at an early date.

G. D. CROSS
