Howard,

Appreciate your take on whether or not these changes would be acceptable to API. While I'm expecting other minor inputs, I am assuming these are the most substantive. What we want to do is to reflect the prior conversation with Dr Irons while at the same time acknowledging the process we need to use with API. I'll give you a call in the morning. Phil

Phil,

I see that you are on point for this today. Attached is the working draft API letter. Per our agreement on Friday, we are forwarding this directly to you on behalf of the Oversight Committee. Obviously, if there are any comments, we would like them as expeditiously as possible.

Howard Feldman
