Charlette, North Carolina 28211

Dear Mr. Eikenberry:

We designed a building for the Burlington, Kansas School District in 1968 and our specifications indicate that we used a Gold Bond Product called (Spray-O-Lite) acoustical plaster which was sprayed on the underneath side of a concrete roof deck.

Please advise me as soon as possible whether in 1968 this product did or did not contain asbestos fibers.

Yours very truly,

FRANGKISER & HUTCHENS ARCHITECTS, INC.

Carroll T. Hutchens, President
