Date: March 22, 1978

From: M. Petruccelli

Location: 6 North

Subject: VCM Tank Car Markings

I have followed up several times with you to verify that all of our VCM cars have been stencilled in compliance with the OSHA requirements that became effective December 31, 1977. To the best of my knowledge, I have never had a response from you. Please advise at once if we are in full compliance, and if not, why not.
