Assessment Review

Order issued was discussed with reason for it. Previous problem of skin rash when [redacted] machining carbon does not now occur.

Occupational Health Branch report 20982 CA06 dated May 6. 1982 was reviewed. This covered the air sampling for asbestos, n-Butanol, Lead and trichloroethane. No orders to be issued.

One lost time accident reported in 1982 was discussed.

Asbestos materials, in particular to blue asbestos, is now being stored in plastic bags to prevent dispersion of fibres.

The new Regulation respecting asbestos as a designated substance. Requirement to make a written assessment was pointed out.

Minutes of the last Joint Health & Safety Committee meeting held Aug 10.82 were reviewed. Three members of Management and three from Union were present.

Mr Mousel and Mr Dawson agreed that all areas had been covered.

Mr Dawson said he had no [redacted] other unresolved health & safety concerns at this time.
