RE: FREIGHT CLAIMS - FIRESTONE VCM

Please find the attached documentation for the filing of freight claims on VCM shipments to Firestone for the period January 1 thru December 31, 1974.

Please note the following:

- (1) Documentation was provided on only those shipments for which billings payments varied from the Burlington/Flemington rate in effect at the time of shipment.
- (2) Documentation for over-payments made by Cass Bank consists of only copies of freight bills and bills of lading.
- (3) Firestone was billed collect on three shipments out of Norco and reimbursed by Tenneco at \$1.53/cwt. If there was in fact no published rate on shipments from this location, can we backcharge Firestone?

If additional information is required to expedite filing of claims, please advise.

R. Hall
