

Remarks

Scope defined **for RoI** (exclusion WP2 and possible E-use WP7)

Scope defined **for Annex XV report** (ongoing assessments can still lead to changes in scope i.e. substances/substance groups to be excluded, uses to be derogated etc.)

Suggestion for timing of a second CfE which would only be feasible if targeted for specific information. In that case also deadlines for Annexes would need to be extended till end of November.

Call for Evidence for specific information (15. July - 15. September)

Assessment of CfE info only for specific information requested (15. September -15. Oktober)

Update of drafts of Annex A and Annex B specifically (15. October- End November)

Annex A. Manufacture and uses

Annex B. Information on hazard, exposure/emissions and risk

Phys-chem, Grouping

Information on hazards

Exposure/Emission

Risk

Annex C. Justification for action on a Union-wide basis

Annex D. Baseline

Annex E. Impact Assessment

Use and function of alternatives

Hazards of Alternatives

Monitorability, Practicability

Annex F. Assumptions, uncertainties and sensitivities

Annex G. Stakeholder information

1. Problem identified

1.1. Hazard, exposure/emissions and risk

1.2 Justification for an EU wide restriction measure

1.3. Baseline

2. Impact assessment

2.1. Introduction

2.2. Risk management options

2.3. Response to restriction scenario(s)

2.4. Economic impacts

2.5. Human health and environmental impacts

2.6. Other impacts

2.7. Practicability and monitorability

2.8. Proportionality to the risk (including comparison of options)

3. Assumptions, uncertainties and sensitivities

4. Conclusion

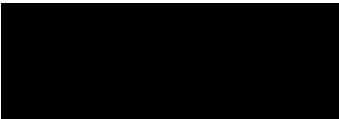

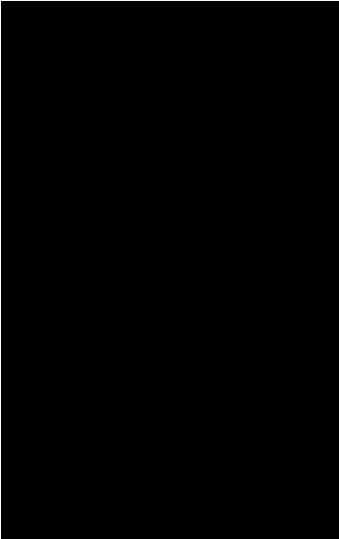

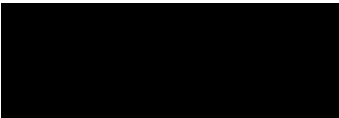

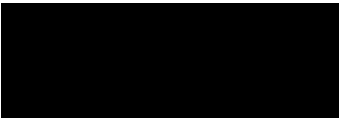

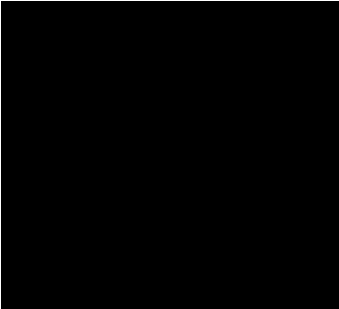

Lay-out, text combining

Unexpected delay, dossier submission

Further points to consider Agreement to use the same common citation tool and style
Clarification of need of IUCLID dossier
