Cleeve Road
Leatherhead, Surrey, England

1st August, 1968

Dear Mr. Keene,

Discussion of Papers

It is the policy of the Editorial Board to encourage discussion of papers published in the Journal. To help stimulate this discussion and to ensure that the interval between publication of the discussion and the paper is as short as possible, it is our practice to send out a few uncorrected pre-prints.

We hope that the enclosed pre-print will interest you. If not, perhaps you could send it on to a colleague, with this letter.

If you are prepared to comment on the paper, we shall be pleased to consider your remarks for publication in the Discussion Section, together with a reply by the author(s) if appropriate.

Yours sincerely,

D. J. Moore

D. J. Moore.
