Attachments: Daikin emission report_2022.09.14.pdf; CONFIDENTIAL - Daikin Chemicals PFAS report_June2022.pdf

Dear Ms Ivarsson,

As previously communicated when sharing with you Daikin's PFAS report at the end of June, Daikin has been conducting additional water emission measurements at its FKM production site in Pierre Bénite, France. The results of these measurements are provided in attachment. It shows in particular a very high capture rate for PFHxA (99.95- 99,99%). The presentation refers also to other PFAS and presents a plan for further emission prevention.

The previously shared PFAS report is attached, for your convenience, password: PFaS_1stEd.

We would be grateful for the opportunity to have a meeting or call with you to discuss the provided information.

We remain at your disposal for any questions,

Kind regards,
Marie Gorkem
