INTERDEPARTMENTAL COMMUNICATION

DATE: 5/18/70 MAY 20 1970

TO: Mr. T. W. Richards

LOCATION: Portland RESEARCH & DEVELOPMENT

FROM: E. L. Hay

LOCATION: Fort Dodge

SUBJECT: ONE-DAY JOINT CEMENT

Please refer to your letter of May 15th to Mr. Nielsen.

We have 114 bags of the old one-day joint cement on inventory. This is packaged in the Johns-Manville bags. We will not ship this item per your letter of May 15th. Please advise if we should destroy what we have on hand.

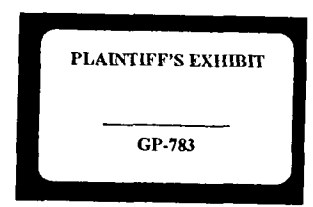

Due to the slow demand for this item we have not ordered the new product, Speed Set, and, therefore, do not have any inventory of Speed Set.
