Subject: RE: infrastructure examples

Hello Byron,

I am in the process of reaching out to our state chapter affiliates on your request and will report back with any information.

Thanks,

Nick

Subject: infrastructure examples

Hi David and Nick -- I have been coordinating EPA's contributions to the White House's infrastructure initiative, and I wanted to see if you could help me track down some information. I am looking for specific examples of infrastructure projects that are "shovel ready" but lack funding -- lack of direct funding as well as lack of a revenue stream. I know some associations have already compiled lists and put them forward to the White House or Congress, so hopefully this would be an easy ask. The examples could include project categories that are under the purview of other agencies such as bridges, transportation hubs, or harbor projects. I am not looking for anything formal, just a couple of examples with basic information describing the type of project, location, project status, and expected cost. Thanks, and let me know if I can answer any questions. - Byron
