

Report from Mr. Siebenthaler

██████ was discharged from hospital about August 25. Remained at home for two weeks. Was symptom free, slept well and had no pronounced nervousness. Returned to work September 7, 1937. Was put to work as helper on truck. Became nervous on reaching city traffic and returned to plant with truck and again went home. Seen by Dr. Bryson September 8 and returned to work September 9. Had worked all day, complained some of nervousness but was able to do light yard work and help on truck.
