RE: ACCOUNTING OF ASBESTOS REMOVAL
DU PONT, VICTORIA COUNTY, TEXAS

Dear Mr. Stewart:

On September 16, 1983 we notified you that during the remainder of 1983 and during 1984 we would be removing asbestos containing insulation from vessels in our Dodecanedioic Acid plant. We also promised to give you a report in January, 1984 of how much insulation was removed during the balance of 1983. The amount removed was approximately 3,900 square feet from six vessels. There remains to be removed about 21,100 square feet from 38 vessels.

Please contact me at (512) 572-1277 if you have questions.

Very truly yours,

A. H. Nickolaus
Senior Environmental
Control Consultant
Engineering Division
