Mr. Heath

1. Idaho Study Center
2. Idaho Epidemiologic Studies Project
3. Date: 12/29/73
4. Accomplishment
Title: Underreporting of deaths - Alsea, Oregon Study

Pam Smith & Jill Wyatt

At the request of the Director's Center of EPCRA, the Idaho Epidemiologic Studies Project is a team led by Pam Smith and Jill Wyatt to review hospital records at Holy Family Hospital in Alsea, OR. This is part of an evaluation of health and environmental information of women in Oregon who thought they might have been exposed to DDT before experiencing spontaneous abortion. The EPCRA project reviewed hospital records of women who had spontaneous abortions and were terminated by spontaneous abortions.

5. Significance to EPCRA
Supports EPCRA in the area of the health effects of Pesticides
Provides support for the EPCRA program and cooperation between EPCRA
Project.
