

The **BIG** difference in Vogt **DT** Steam Generators is in the **DESIGN!**

The many new features incorporated in the design of Vogt DT steam generators assure maximum steam generating economy with minimum maintenance.

These advanced design features tell why!

- Skin type inner casing eliminates the possibility of casing corrosion from combustion gases.
- Rectangular tube spacing for lower draft loss and higher efficiency.
- Fully water cooled rear wall for extra heating surface.
- Angled rear furnace wall obtains complete scrubbing of all rear furnace tubes. No refractory wall maintenance.
- Tangent furnace tubes for higher heat absorption.
