DEPUTY CHAIRMAN'S OFFICE

20th February 1969

Dr. W. Blakey,
British Industrial
Plastics Ltd.,
P.O. Box 6,
Popes Lane,
Oldbury,
Warley,
Worcs:

Dear Dr. Blakey,

Reference your letter to Sir Ronald Nyholm in reply to his letter of the 5th February, I enclose a copy of Mr. Howard's notes, dated the 18th February, together with the three Codes of Practice to which he refers in the first paragraph. Unless you know of any reason to the contrary, it would probably be worth sending copies of these papers to Sir Ronald.

Mr. Bateman has also suggested that it might be a good idea to arrange for Mr. R. A. Wells to go to see Sir Ronald and talk to him about the whole subject of asbestos and health. It would obviously be a very good thing indeed if we could get him on our side.

Yours sincerely,

c. RMB
