MAIN OFFICE AND REFINERY

BRADFORD, PA.

August 9, 1938

Dr. R. A. Kehoe
Kettering Laboratory
College of Medicine
Cincinnati, Ohio

Dear Sir:

Following my conversation with Dr. L. J. Schradin in June at which time he suggested that on request your laboratory would analyze a sample of blood of our employee [REDACTED] for the presence of tetra-ethyl lead, we desire that you provide Dr. S. A. McCutcheon in Bradford with the necessary equipment for taking the blood sample and that you report the analysis to Dr. McCutcheon sending us a copy of the report.

Our insurance carrier has authorized Dr. McCutcheon to have a sample of [REDACTED] blood analyzed in a Buffalo laboratory and Dr. McCutcheon being acquainted with the reports of your work in medical publications, has personally asked that we request you to make the same analysis.

Yours very truly
