Dear Dr. McCormick:

This refers to the acceptability of the proposed plastic wrapper for oleomargarine which we discussed at a conference in Dr. Lehman's office on May 20 and which you describe in your letter of May 21.

No objection will be made to the use in federally-inspected meat packing establishments of the plasticized vinyl-rubber film described in your letter, pending the completion of the extractability tests with lard oil at 100° F. for 15 days.

Very truly yours,

R. M. Mehurin
