Yup. For sure. It looks like the Region has gone full rogue here though.

Will you also be discussing the alternative developed by the PRPs that would focus on identifying the hot spots, etc. so cleanup can begin more quickly?

Subject: FW: Portland Harbor -- EPA's Draft Sampling Plan
Importance: High

This is basically a plan asking the private parties to re-do the Remedial Investigation which will take At MINIMUM 5 years and cost more than \$25-30 million at least. This is what they are presenting in the meeting tomorrow. This is presented as the EPA position on the sampling plan.

Subject: Portland Harbor -- EPA's Draft Sampling Plan
Attached is the sampling plan that EPA and its government partners have been working on. I would appreciate if you would distribute to the Pre-Remedial Design Group. We are sending this to the State, City, NW Natural, and Federal PRPs as well. We look forward to meeting with the Pre-Remedial Design Group on all ideas about pre-remedial design sampling.
