

29th ANNUAL MEETING

The 29th Annual Meeting of the Membership of Industrial Hygiene Foundation was held as usual during the third week of October, to review progress of Foundation programs and to elect the Board of Trustees. The 30th such meeting will be held on October 20-21, 1965.

At the Meeting, as a means of aiding its members in keeping abreast of important progress in all phases of occupational health, conferences are scheduled. Speakers are outstanding representatives of management, specialty fields of occupational health or compensation law.

Transactions are published in the American Medical Association Archives of Environmental Health and distributed free to members or sold at cost by the Foundation.

The Annual Meeting, which is open to guests as well as members, is intended to help disseminate useful information to assist in the advancement of occupational health programs throughout industry. In addition, it serves as a means of interesting potential members in supporting Foundation programs of research and education in occupational health.
