

1 Would it still be around?

2 MS. TOSTANOSKI: Objection.

3 A Oh, yes.

4 THE COURT: Overruled.

5 Q When the Judge says overruled, you can go
6 ahead with your answer.

7 Mr. Cunningham, so you can complete your
8 answer, would the particles be around even if they
9 weren't --

10 A Sure, you could see that stuff in the air
11 all the times.

12 If they sweep the floors up you could see
13 it, kick it up in the air and it would get on you and
14 itch you a lot of times even.

15 Q Now, Mr. Cunningham, while you were at the
16 Loch Raven Apartments for that six months in
17 approximately 1949 or 1950 when Mr. Vandergucht was
18 also there and the pipecovering was there, did you
19 have a chance to know the name of the pipecovering?

20 What it was called?

21 A Kaylo.
