Section I – INTRODUCTION

PURPOSE OF THE INSPECTION

Representing EPA Region 6, Chuck Ruple and I arrived at the Good Sportsman Marketing (GSM), LLC at 10:30 AM on August 6, 2019, to conduct a for-cause inspection. Upon arrival, we met with Mr. Edward Castro, President and CEO. I presented my credentials to Mr. Castro, along with a Notice of Inspection. The Notice of Inspection indicated that the reason for the inspection was to investigate sales and distribution of alleged unregistered pesticide(s). I also indicated that within the scope of the inspection was to evaluate their inventory of pesticide products (i.e., pesticides and devices to repel, mitigate and/or kill pests) and relevant labels, as required under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).

FACILITY DESCRIPTION

GSM is an outdoor gear and equipment marketplace owning the following name brands: Stealth Cam, Walker's Game Ear, Muddy, Hawk Hunting, Big game, New Archery Products (NAP), Hunting Made Easy (HME), Shooting Made Easy (SME), Bullseye Cams, Cyclops, Boss Buck, American Hunter, Western Rivers, Viking Solutions, Coyote Light, Crossfire, Scent Slammer, and other GSM Safety Products (see business card attached). They have been operating since 1999, and moved to the current location at 5250 Frye, Irving, Texas, around April 2019. They also have a warehouse facility down the street, located at 3385 Roy Orr, Grand Prairie, Texas (see site map). They sell and distribute different kinds of equipment, gear, and products used for outdoor activities like hunting and sports (see products listed above). The products within the scope of this inspection are under the Scent Slammer brand.

Section II – OBSERVATIONS

During the meeting with Mr. Castro, I inquired about the product(s) sold under the brand "Scent Slammer." An inspector from the Oklahoma Department of Agriculture, Food and Forestry (ODAFF), found an Ozone Air Cleaner under this brand during a marketplace inspection. Mr. Castro stated that this product was not made with the intent to kill bacteria and that its labeling was revised to remove the antimicrobial claims. Mr. Castro also stated that GSM's antimicrobial claims were similar to other products found throughout the industry. I observed and documented that other products from GSM also had labels with antimicrobial claims (see photos attached).

The facility applied for an establishment registration with EPA Headquarters. Mr. Castro provided copies of documents that they received showing their establishment registration and the numbers (see establishment registration documents). Mr. Ruple provided compliance assistance information regarding establishment registration and when to report to EPA for either pesticides or devices produced at the facility.

Section III – AREAS OF CONCERN

During the inspection I observed that some of the products still had antimicrobial claims on the label and/or package. Mr. Castro stated that they did not have the intent for those products to treat for bacteria but to clean particles in the air that cause bad odors. He also stated that new labels should have been printed and affixed to all products as intended to clean the air. During the inspection, Mr. Castro also removed all antimicrobial claims from product labels sold on the internet. As previously labeled, these products fit the definition of a pesticide that requires registration under the FIFRA.

The inspection was concluded at approximately 12:35 PM and I exited the facility.

Section IV – FOLLOW UP

I explained to Mr. Castro that an inspection report and enforcement response may follow the inspection and to let me know if any information would be claimed confidential.

Section V – LIST OF APPENDICES

Re: Establishment Registration

94817

SHENZHEN SNAPPER TECHNOLOGY CO., LTD

Dear SHANE TURANY:

The information provided below serves as notification of registration of the pesticide-producing establishment(s) for which you applied, pursuant to Section 7 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Each registered establishment is assigned a unique establishment registration number. This establishment registration will remain in effect, provided pesticide reports on production and sales or distribution amounts are submitted annually as required. (See **computer printout on Page 2**).

Part 167 of the Code of Federal Regulations (40 CFR) requires your company **to submit an Initial report for Pesticide-Producing Establishments, EPA Form 3540-16 within 30 days of receipt of this letter.** EPA Form 3540-16 can be completed electronically, instructions for completing the form electronically can be found at <https://www.epa.gov/compliance/electronic-reporting-pesticide-establishments>. Please note that the report asks for production amounts for year **2018**.

In addition, you have the option to submit your company's Initial Report(s) and subsequent annual report(s), electronically! EPA has created an optional electronic reporting system for pesticide establishments using the Section Seven Tracking System (SSTS) through EPA's **Central Data Exchange (CDX)**. (See **Page 3 for more details**).

Failure to submit your Initial report(s) within 30 days may subject your establishment(s) to an administrative civil penalty.

After the Initial Report(s), future reports must be submitted on a **yearly basis**. Production reports for establishments registered to produce pesticides and pesticidal devices are due by **March 1st** as long as the establishment is active, regardless of whether or not production has occurred (regulations pursuant to Section 7 of FIFRA).

Parts of the 40 CFR which apply to pesticide establishments are: (1) *Part 167-Registration of Pesticide and Active Ingredient Producing Establishments, Submission of Pesticide Reports* and (2) *Part 169-Books and Records of Pesticide Production and Distribution*.

Changes in name, address, or ownership of the company or any establishments are to be reported to this office within thirty (30) days of the change. If your company decides to cease production of all pesticides and pesticidal-devices, you may request inactivation of the establishment(s). Requests for inactivation of establishments are also to be sent to this office.

The container of each pesticide product which is released for shipment must bear the EPA Establishment Number assigned to the establishment in which it was produced. This number, which is to be preceded by "EPA Est.", may appear in any suitable location on the label or immediate container. It must also appear on the outside container or wrapper of the package if the EPA Establishment Number on the immediate container cannot be clearly read.

If you have any questions, or need help filling out EPA Form 3540-16, please contact me at 202-564-2084 or at HQPesticideEstablishments@epa.gov if you prefer e-mail.

Sincerely,

Foreign Pesticide Establishment Coordinator
Pesticides, Waste and Toxics Branch (2227A)

FOREIGN PRODUCERS: Submit report(s) to EPA following the steps below:

**Electronic Reporting for Pesticide Establishments
– Registration Information for CDX –**

EPA has created an optional electronic reporting system for pesticide establishments using the Section Seven Tracking System (SSTS), to submit their initial report(s), electronically! Access **EPA's Central Data Exchange (CDX)** at <https://cdx.epa.gov/>, for this available option. I hope that your company will take advantage of this option. (For the abbreviated instructional one-pager guide, see email attachment).

Or check out a video tutorial on how to register here: <https://youtu.be/nunJ714vqqk>

For Section 7 program information about electronic-reporting, go to:
<https://www.epa.gov/compliance/electronic-reporting-pesticide-establishments>.

Subject: Assignment of New EPA Company Number

Dear Registrant:

The Office of Pesticide Programs received your request for a company/distributor number. The company number assigned to you is 94817.

You are required to notify the Agency of any change in name or address. All requests for change of company name and/or address, appointment of agent or withdrawal of an agent's appointment, must be sent to the following address:

Document Processing Desk (COADR)
Office of Pesticide Programs (7504P)
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

All products must be registered with the Agency prior to shipment and/or sale. Information on registering pesticide products can be obtained by calling the Registration Division Ombudsperson at (703) 308-8893. Requests for a Pesticide Registration Kit can be obtained via e-mail to: Hobgood.Sherada@epa.gov. If you are only distributing a product you must complete the Notice of Supplemental Registration of Distributor (EPA form 8570-5). This form can also be obtained by calling the number listed above or can be downloaded at: <https://www.epa.gov/pesticide-registration/pesticide-registration-manual-blank-forms>.

Any production of pesticides, active ingredients or devices, including companies or establishments that import into the United States, must be conducted in a registered pesticide-producing or device-producing establishment. Information on registering an establishment can be downloaded at:
<https://www.epa.gov/compliance/epa-form-3540-8-application-registration-pesticide-producing-and-device-producing>.

Retain a copy of this notification and its attachments for your record of the registration of the pesticide-producing and device-producing establishment.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

Notification:

The following establishment number has been activated.

(94744-CHN-1)

Please submit the 2018 Initial Report within 30-days of receipt of this Notice, find information here.

Or Electronically Submit the 2018 Initial Report. (See "Instructions for registering for CDX" for details).

NOTE: EPA will not accept any faxes or emails of establishment initial or annual reports (EPA Form 3540-16).

Failure to submit your Initial report(s) within 30 days may subject your establishment(s) to an administrative civil penalty.

This establishment registration will remain in effect, provided pesticide reports on production and sales or distribution amounts are submitted annually on or before March 1.

Regulations pertaining to establishment registration are in **40 CFR Part 167**.

Regulations pertaining to books and record keeping requirements are in **40 CFR Part 169**.

*Electronic Reporting for Pesticide Establishments. (Open attachment "Instructions for registering for CDX").

Re: Establishment Registration

94744

CIXI HAOSHENG ELECTRONICS & HARDWARE CO., LTD

Dear SHANE TURANY:

The information provided below serves as notification of registration of the pesticide-producing establishment(s) for which you applied, pursuant to Section 7 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Each registered establishment is assigned a unique establishment registration number. This establishment registration will remain in effect, provided pesticide reports on production and sales or distribution amounts are submitted annually as required. (See computer printout on Page 2).

Part 167 of the Code of Federal Regulations (40 CFR) requires your company **to submit an Initial report for Pesticide-Producing Establishments, EPA Form 3540-16 within 30 days of receipt of this letter.** EPA Form 3540-16 can be completed electronically, instructions for completing the form electronically can be found at <https://www.epa.gov/compliance/electronic-reporting-pesticide-establishments>. Please note that the report asks for production amounts for year **2018**.

In addition, you have the option to submit your company's Initial Report(s) and subsequent annual report(s), electronically! EPA has created an optional electronic reporting system for pesticide establishments using the Section Seven Tracking System (SSTS) through EPA's **Central Data Exchange (CDX)**. (See Page 3 for more details).

Failure to submit your Initial report(s) within 30 days may subject your establishment(s) to an administrative civil penalty.

After the Initial Report(s), future reports must be submitted on a **yearly basis**. Production reports for establishments registered to produce pesticides and pesticidal devices are due by **March 1st** as long as the establishment is active, regardless of whether or not production has occurred (regulations pursuant to Section 7 of FIFRA).

Parts of the 40 CFR which apply to pesticide establishments are: (1) *Part 167-Registration of Pesticide and Active Ingredient Producing Establishments, Submission of Pesticide Reports* and (2) *Part 169-Books and Records of Pesticide Production and Distribution*.

Changes in name, address, or ownership of the company or any establishments are to be reported to this office within thirty (30) days of the change. If your company decides to cease production of all pesticides and pesticidal-devices, you may request inactivation of the establishment(s). Requests for inactivation of establishments are also to be sent to this office.

The container of each pesticide product which is released for shipment must bear the EPA Establishment Number assigned to the establishment in which it was produced. This number, which is to be preceded by "EPA Est.", may appear in any suitable location on the label or immediate container. It must also appear on the outside container or wrapper of the package if the EPA Establishment Number on the immediate container cannot be clearly read.

If you have any questions, or need help filling out EPA Form 3540-16, please contact me at 202-564-2084 or at HQPesticideEstablishments@epa.gov if you prefer e-mail.

Sincerely,

Foreign Pesticide Establishment Coordinator

FOREIGN PRODUCERS: Submit report(s) to EPA following the steps below:

**Electronic Reporting for Pesticide Establishments
– Registration Information for CDX –**

EPA has created an optional electronic reporting system for pesticide establishments using the Section Seven Tracking System (SSTS), to submit their initial report(s), electronically! Access **EPA's Central Data Exchange (CDX)** at <https://cdx.epa.gov/>, for this available option. I hope that your company will take advantage of this option. (For the abbreviated instructional one-pager guide, see email attachment).

Or check out a video tutorial on how to register here: <https://youtu.be/nunJ714vqqk>

For Section 7 program information about electronic-reporting, go to:
<https://www.epa.gov/compliance/electronic-reporting-pesticide-establishments>.
