Standard Oil Company (Indiana) - Handling of Sludge — August 18, 1960

The Standard Oil Company (Indiana) has requested a letter stating our new policy on the handling of sludge from tanks containing leaded gasolines.

The Central Region has written a draft of such a proposed letter, copy of which is attached hereto. We would appreciate your approval or corrections so that we can send it to the customer.

Since they are anxious to receive this letter as soon as possible, we suggest you teletype your approval and/or corrections.
