C. Sweets - E3NA
E. P. Wheeler - A2SA

I have received a copy of Dr. Kimbrough's comments that she presented here at Monsanto on November 22. I have forwarded a copy to Dr. Gordon at Industrial BIO-TEST. He is their pathologist and he will be reviewing liver sections from our 2-year feeding study on Aroclor 1260 for discussion with Dr. Kimbrough and Dr. Squires.

The review will be held sometime in January since it was not possible to prepare an adequate review of our slides before then.

George J. Levinskas
