This memo is a follow-up to our conversation of last week regarding the services of Jack Garrett.

It is my understanding that John Henshaw will not utilize Mr. Garrett to the full extent of the consulting agreement. I further understand that John has agreed to allow you to utilize part of Mr. Garrett's allotted time for the period April 15, 1988 through April 14, 1989.

I have talked with Scott Meyer concerning the fact that the existing agreement specifically covers the field of Industrial Hygiene and not Epidemiology. The conclusion was that the existing agreement is acceptable for Mr. Garrett to perform services for both departments. However, if the agreement is renewed for 1989-90, it should be changed to specifically indicate that he will perform services for both departments. For this year, it will be necessary for you to coordinate your requirements with John Henshaw.
