payers' and Taxpayers' Protective Association will be held at 8 o'clock in Philip G. Vroom School.

Harvey to Speak To Safety Group

Some of the functions of the industrial physician will be the topic discussed at the December meeting of the Northern New Jersey Chapter, American Society of Safety Engineers—Engineering Section, National Safety Council at 8 o'clock tomorrow evening in Assembly Room 801, Industrial Building, 1060 Broad street, Newark.

The subject will be presented by Dr. J. W. Harvey, of Bayonne, a leading industrial surgeon and former medical director at the local plant of the Standard Oil Co. Dr. Harvey has had an abundance of experience in the handling of difficult accident cases.

The nominating committee, of which John Russell, Jr., safety engineer, United Engineers and Constructors Inc., is chairman, will report on the nominations for the Chapter's 1932 officers. Co-workers with Mr. Russell are William Weir, manager engineering and inspection department, Commercial Casualty Co., and S. F. Larchar, personnel director, T. A Edison Industries.

Ancient cloisters, or parts of them, are still to be found in many parts of London; they are reminders of the days when the city boasted spacious monastic establishments.
