Dear Mr. Hatz:

This is in response to your letter to Mr. Sheldon D. Butts of March 23, 1978, regarding patching compounds containing intentionally added asbestos.

While the regulation published December 15, 1977, prohibited the manufacture of patching compounds containing intentionally added asbestos on January 16, 1978, it did allow for the continued retail sale of products manufactured earlier up to June 11, 1978. We appreciate your bringing this information to our attention. We have requested our field offices to investigate the firms you have mentioned to insure that they are complying with the regulation.

Thank you for your interest in this matter.

Sincerely,

Charles M. Jacobson
