Dear Phil:

We do appreciate your reply to our turn around time survey and the efforts which you are putting into insuring that the turn around time to NAPA is kept to a minimum.

If there is anything we can do to help, especially with the Rayloc truck situation as far as clarifying that, please let us know.

We will be interested in seeing the results of our spring survey, as obviously you and Abex are working to keep the turn around time to a minimum.

Again, thanks for your help, Phil.

Best regards,

N A P A
