

SOUTHWESTERN REFINING COMPANY, INC.

INTER OFFICE MEMORANDUM
04 February 1980

MEMO TO: Distribution

FROM: N. L. Renfro

SUBJECT: EPA Disposal Regulations for Reporting Prior to Stripping
and Removal of Asbestos Materials

Federal Regulation 40CFR Part 61 specifies notification requirements for removal of asbestos containing materials during demolition or renovation.

DEMOLITION: Reporting to the EPA Region Administrator is required in all cases.

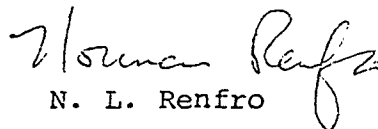

- A. If more than 260 linear feet or 160 square feet is involved, the notification must include the following items and be delivered 10 days prior to commencing demolition.
1. Name of owner or operator of demolition operation.
 2. Address of owner or operator.
 3. Description of building or facility to be demolished.
 4. Address of building or facility.
 5. Starting and completion dates of demolition.
 6. Nature of planned demolition methods.
 7. Procedures to be employed to meet 40CFR 61.22 d and j.
 8. Name and address of waste disposal site to be used.
 9. Name, title, and authority of the state or local governmental representative who has ordered demolition subject to 40CFR 61.22 (d) (6).

1B 049251

- B. If less than 260 linear feet or 160 square feet is involved, the notification must include items 1, 2, 4, 5 and be delivered 20 days prior to commencing demolition.

RENOVATION: The same reporting requirements apply here as indicated for demolition involving asbestos material with the exception of:

1. If less than 260 linear feet or 160 square feet is removed, notification is NOT required.
