Subject: AFPM Meeting Request

Caution: This email originated from outside EPA, please exercise additional caution when deciding whether to open attachments or click on provided links.

Jeffrey,

Good afternoon and I hope this email finds you well. I do not believe we have had a chance to meet and so would like to introduce myself and the American Fuel & Petrochemical Manufacturers (AFPM). AFPM represents approximately 90% of the U.S. refining industry and nearly all U.S. petrochemical companies.

We are hoping that we might find some time to meet with you and Abbie Tardif in the coming weeks to discuss the National Emission Standard for Benzene Waste Operations at 40 C.F.R. Part 61, Subpart FF (BWON) and New Source Performance Standards for Volatile Organic Compounds from Petroleum Wastewater Systems at 40 C.F.R. Part 60, Subpart QQQ (NSPS QQQ). Compliance assurance with these regulations is a major focus of our members and we would appreciate the opportunity to brief you on our perspectives.

Thank you and please let me know if there is a good time for us to come in.

Geoff Moody
