

GARDEN DUST

A marvel in multiple pest control, in dust form. Both an insecticide and a fungicide. Gives both quick action and long lasting effects. Comes in handy 8 oz. dust gun and 1 or 2 lb. refill bags. Safe for both garden and household use. Just a few of the many pests against which it may be used are:

Sucking Insects: Aphids, Thrips, White Fly and many others.

Plant Diseases: Powdery Mildew, Rust, Leaf Spot.

Chewing Insects: Ants, Earwigs, Cutworms, Wireworms, Leaf Skeletonizers.

If you prefer a spray, get DU-O-CIDE SPRAY.

It, too, is both an insecticide and a fungicide.
