

Caution: This email originated from outside EPA, please exercise additional caution when deciding whether to open attachments or click on provided links.

Our smelting facility has always strived to meet environmental standards and ensure a safe and healthy environment for our employees and the community. However, we are currently unable to fully comply with the specific air pollution standards that have been set for our operations.

We are fully committed to maintaining transparency and complying with all other environmental and safety regulations. We would greatly appreciate your consideration of this request and would be happy to discuss the details or provide any further information that may be necessary.

Thank you for your attention to this matter. We look forward to working together to find a solution that supports both our operational needs and environmental responsibilities.
