Enclosed please find a packet of information that describes a new internet site dedicated to chrysotile asbestos which is now on line at www.chrysotile.com. This packet and web site were developed by The Asbestos Institute in Montreal. The section on the "Asbestos situation in the United States Today" was contributed by AIA/NA as well as comments on other sections.

We hope that this packet of information will be helpful in promoting or responding to contacts in regard to chrysotile asbestos and to products containing chrysotile asbestos.
